Frontend developer skilled in HTML, CSS, JavaScript, and React, focused on building responsive and user-friendly web interfaces. Passionate about learning and improving through real-world projects.

PROJECT

Portfolio Website [Live Demo](#)

- Created a personal portfolio to showcase projects and technical skills
- Focused on responsive layout and clean UI design

React Developer Card UI [Live Demo](#)

- Built a responsive UI using React.js with props and component-based architecture
- Rendered dynamic data using array mapping
- Focused on component-based architecture and code reusability
- Designed clean and modern UI with hover effects and flexible layout

To-do website [Live Demo](#)

- Developed a task management application with full CRUD functionality
- Implemented task filtering (All, Completed, Pending) for better usability
- Integrated localStorage for persistent data handling
- Managed real-time UI updates using JavaScript DOM manipulation

Skills
